

AWARD LEVELS

There are three levels in which you can participate - BRONZE, SILVER or GOLD, with each successive level demanding increased commitment.

- **BRONZE**—for those aged over 14.

The minimum period of participation to gain this Award is 6 months;

- **SILVER**—for those aged over 15.

The minimum period of participation to gain this Award is 12 months;

- **GOLD**—for those aged over 16.

The minimum period of participation to gain this Award is 18 months.

At the discretion of the award coordinator permission may be given to students to begin their award before these age limits e.g. students in grade 9 can start their Bronze Award.

Each level is completely separate from the others. You can choose to join the programme at the level which best suits.

You do not have to start at the Bronze level. If you are over 15 you can join directly at the Silver level or if you are over 16, directly at Gold. For those who complete a level they can finish the next level quicker e.g. a bronze award holder can complete their silver award in 6 months.

For more information on the Award levels check out the International Award website
