

Home Learning Policy 2019/2020

HOME LEARNING

Each student will receive home learning appropriate to their level and within the format bolded below. In most cases, the learning is set on a Thursday and must be completed by the following Tuesday.

Whilst these tasks will be initially set through the weekly newsletter which comes to parents from the class teacher, it is expected the below home learning model will become embedded into each week. Therefore it will not be an ongoing necessity to repeat these expectations once both students and parents are familiar with the model.

For 2019/20 these tasks will consist of the following:

- **Mathletics tasks set by the teacher with students completing suitable Mathletics follow-up tasks from their portal OR a maths task set by the teacher;**
- **Reading Eggs self-managed tasks;**
- **A daily reading log which can include books read on reading eggs or printed books;**
- **Phonics/spelling/vocabulary - 10 words maximum per week.**
 - **Years 1/2 spelling based on phonics work**
 - **Year 3/4/5/6 spelling based on reading eggs**
- **Occasional research or practical home learning task**

Home learning is aimed to ensure our students have sound core curriculum skills that will complement all areas within the classroom. We ask our parents to support our students with their home learning. We also encourage our parents to listen to their children read.

Duration of Home Learning

The table below is a recommended minimum amount of time the average attaining child should spend on each home learning task. The times recommended in the table is for the duration of that particular task, rather than how much time the children should spend on home learning each night.
